

SUNDAY, 2 JUNE 2024

14:00 Exhibition set-up

16:00 Delegate registration

MONDAY, 3 JUNE 2024

07:30 Delegate registration

09:00 Welcome address: Thomas Armstrong, Managing Editor, International Cement Review (UK)

09:30 Indonesia's low carbon roadmap: Lilik Unggul Raharjo, chairman, Indonesia Cement Association (Indonesia)

10:00 Keynote speech: Ministry of Industry, Republic of Indonesia (To be confirmed)

10:30 Coffee break

11:00 China's decarbonisation roadmap: Chen Guoqing, China Building Materials Federation (China)

11:20 SCG decarbonisation strategies for net zero 2050: Monticha Khammuang, SCG Group (Thailand)

11:40 How to decarbonise cement while reducing costs and/or increasing output: Peter Hoddinott, Independent Consultant

12:00 Optimisation/reduction in specific heat and alternative fuel resource utilisation: Vijay Arumugam, thyssenkrupp Polysius (Vietnam)

12:30 Lunch break

14:00 Technologies for Asian decarbonisation: Dr Michael Clark, Whitehopleman (UK)

14:30 Financing the cement decarbonisation roadmap: Antonio Della Pelle, International Finance Corporation (Singapore)

15:00 Adaptive decarbonisation solutions using cryogenics technology: Florian Gautier, Air Liquide (France)

15:30 Coffee break

16:00 Reducing carbon footprint over a number of years - case study: Lars Kuur, FLSmidth (Denmark)

16:20 MVR in Indonesia: operational results and environmental benefits: Phillip Hempel, Gebr Pfeiffer (Germany)

16:40 Complexities and possibilities in clinker factor reduction: Balaji Karthik, Saint-Gobain Construction Chemicals (Singapore)

17:00 Commercialising limestone calcined clay cements: towards the first plant in Asia: Dr Debojyoti Basu Roy, TARA Applied Research Centre (TARC) & PROMAC (India)

TUESDAY, 4 JUNE 2024

08:30 HOT DISC reactor to substitute calciner fuel at Citeureup: Holger Morch, Indocement (Indonesia)

09:00 Economic conversion of MSW into RDF: Eugen Becker, Eggersmann Anlagenbau GmbH (Germany)

09:30 Alternative fuels and the use of cement kilns to dispose of solid wastes: Lee Xiugang, Beijing Ciroten Environmental Protection Tech (China)

10:00 Success stories of AF use with KHD's Pyrorotor®: André Sybon, KHD Humboldt Wedag (Germany)

10:30 Coffee break

11:00 SIG: Industry 4.0 transformation journey: Reni Wulandari, SIG (Indonesia)

11:20 Maintenance and process optimisation - turning data into dollars in the digital age: Scott Ziegler, CemAI (USA)

11:40 Using AI for autonomous operation of cement plant quarries: Albert Hu, Changsha Intelligent Driving Institute (CiDi) (China)

12:00 AI in automation for the APAC cement industry: Dirk Schmidt, KIMA Process Control (Germany)

12:30 Lunch break

14:00 Renewable energy fueling decarbonation, reliability and profitability: Maxime Ramael, Schneider Electric (France)

14:30 Electrifying the cement industry's decarbonisation journey: Max Tschurtschenthaler, ABB (Switzerland)

15:00 Overcoming the challenges of an HPGR grinding system: Kaushik Ghosh, KÖPPERN GmbH (Germany)

15:30 Coffee break

16:00 Breathing new life into carbon capture - cutting-edge flue gas treatment solutions: Alberto Pedrinoni, Redecam Group SpA (Italy)

16:20 Low-thermal conductivity lining solution for cement rotary kiln: Dr Ye Hang, RHI Magnesita (Austria)

16:40 BEUMER Group's solutions for alternative fuel application in the cement industry: Amir Sinai, BEUMER Group (Thailand) Co Ltd (Thailand)

19:30 Gala Dinner and entertainment

WEDNESDAY, 5 JUNE 2024

08:00 Visit to Citeureup Cement Factory (subject to availability)
